WEDDING SPECIALISTS

What's Inside

This leaflet has been developed to inform and inspire you, giving you an idea of what to expect before coming for an appointment. After all, most have not done this before and you have big decisions to make. Starting with information on what you need to think about with regards to your wedding flowers and an idea on prices with our guideline price list. The inspiration pictures are aimed to give you confidence in the quality of work, as all photos are from weddings we have created. We are also recommended suppliers for awarding winning venues such as Sefton Park Palm House, The Reader at Calderstones, and The Hay Loft Allerton Manor Golf Club.

Bridal Party

Bouquets - Traditionally held by the bride, bridesmaids and flower girls. You need to think about... What shape? - Round / Teardrop / Shower / Cascading What Style? - Neat / Just Picked / With a bit of Green / Wild and unstructured. If Bridesmaids are having bouquets - are they having smaller versions of your bouquet or something different? For example, if bride has a shower Bouquet often bridesmaid have round or handtied versions If having Flower girls - are they having mini versions or something different such as basket, wand or wrist corsage?

Buttonholes and Corsages

Traditionally everyone had a buttonhole, but nowadays it tends to be confined to the wedding party. Buttonholes - Groom plus groomsmen, ushers, dads and Granddads. Sometimes buttonholes are given to ladies where you want them to have a flower but not the full corsage that the mothers have. For Example sisters, aunts and Grandmothers. Corsages - Traditionally worn by Mothers of bride and groom in a pin version. However, nowadays these can sometimes be wrist or bag corsages. If there are Grandmothers or step mothers in the family, they sometimes have corsages as well.

Church/Wedding Venue

If you are having your ceremony and reception in the same place it saves on cost to get dual use out of the top table and table decorations. Altar / Registrars Table - this is the focal area when you are getting married. Items used in this area are large pedestal arrangements either side of where the couple stands and registrar table arrangement. If you are having tall arrangements on your dinner tables, these could be used as pedestals. Your top table arrangement or bouquet could be used for the registrars table. Aisle - Do you want decoration on the floor or the aisle such as petals or lanterns and / or something on ends of the chairs or pews? If having low arrangements on your dinner tables, these could be incorporated in your aisle decoration. Chair or pew decoration can be tied bunches or single flowers.

Reception Flowers

Although venues or venue dressers sometimes do flowers for the reception, we would highly recommend getting your florist to do this as it looks uncoordinated if done by different providers. Top table - This will be the focal area for the evening. You need to think about if you want something in the centre such as a long and low style arrangement, something that stretched the length of the table or something like jars dotted down then length of the table? Do you want candle light on your top Table? Tables - Low or high there is no in-between otherwise guests will not be able to see each other. Do you want candle light on your tables? Low options - Fishbowls / Jars / Lanterns / Wreaths with candles in Centre / Posies Tall options - Candelabras / Tree Vases / Martini Glasses / Metal Frame / Tall Vases

I called Booker Flowers 4 days before my wedding (due to original florist issues) to see if they were available to do all of the flowers for my wedding that Saturday. I had a very helpful conversation with the manager who invited me in that day to discuss my flowers. From the moment I stepped in to Booker Flowers shop I felt reassured and calmed during an extremely stressful situation, Fleur the manager sorted all of my flowers for my wedding, she was professional, helpful, knew exactly what I wanted but most importantly she was so so kind and completely reassured me all would be perfect. I am completely blown away by not only the service but by my GORGEOUS flowers when they arrived on the day. They were above and beyond anything in my imagination and received so many compliments. I will never forget what Booker flowers did for me that day, and will never stop recommending them to ALL of my friends and family! Do not hesitate to order flowers from here. Thank you so so much again to Fleur and all at Booker flowers for making my wedding flowers so so special.

- Sarah and Matthew

Booker flowers did my wedding flowers, centre pieces and everything in between . I went in there knowing nothing about flowers but told them about how the wedding was going to be in the autumn and I wanted the outdoors to be reflected inside and wow did they get it spot on (if not even better)!

I received the most gorgeous bouquet I have ever had in my life and I've never received more compliments on anything, the groomsmen buttonholes to the mother's flowers and the tablets in the evening all followed the same amazing flowers and theme!

I honestly can't thank Booker avenue enough for making our day more magical and special with the flowers, centrepieces and hanging love heart decorated with matching flowers and fairy lights.

It was more than we had ever imagined! Thank you all again, you have definitely got a customer for life

- Adam and Rachel

Beautiful wedding flowers. Booker did all of the flowers for our wedding including the bouquets, flower crowns, button holes, centrepieces and more. The flowers were incredibly important to me and Gemma and the team were on hand to adapt and answer all of my questions leading up to the big day. They provided input to my ideas which made my vision even better. On the day everything was set up perfectly, our guests were wonderstruck with what Gemma and her team had created. I visited a number of florists initially and found it very difficult to locate an alternative florist who understood my ideas and could create something more unusual. I could not be happier with the results, I would recommend Booker to all.

- Amy and Kenny

Could not have been happier with our wedding flowers in December!

When we first went in to discuss our ideas and options, Gemma understood straight away what style we were after and let us know which flowers would be most suitable. We were really impressed with the delivery of flowers on the day and they looked amazing. Plus they lasted for weeks after the wedding day! Would highly recommend!!

- Rich and Christina

We used Booker flowers for all of our wedding flowers, everything was absolutely beautiful! All of our bouquets and arrangements were stunning and we've received so many compliments on them! Everyone in the shop was fantastic and really helpful. Thank you again Gemma, Fleur and the team!

- Marco and Anna

Meet Our Wedding Flower Specialists
