

I called Booker Flowers 4 days before my wedding (due to original florist issues) to see if they were available to do all of the flowers for my wedding that Saturday. I had a very helpful conversation with the manager who invited me in that day to discuss my flowers. From the moment I stepped in to Booker Flowers shop I felt reassured and calmed during an extremely stressful situation, Fleur the manager sorted all of my flowers for my wedding, she was professional, helpful, knew exactly what I wanted but most importantly she was so so kind and completely reassured me all would be perfect. I am completely blown away by not only the service but by my GORGEOUS flowers when they arrived on the day. They were above and beyond anything in my imagination and received so many compliments. I will never forget what Booker flowers did for me that day, and will never stop recommending them to ALL of my friends and family! Do not hesitate to order flowers from here. Thank you so so much again to Fleur and all at Booker flowers for making my wedding flowers so so special.
