

Booker flowers did my wedding flowers, centre pieces and everything in between . I went in there knowing nothing about flowers but told them about how the wedding was going to be in the autumn and I wanted the outdoors to be reflected inside and wow did they get it spot on (if not even better)!

I received the most gorgeous bouquet I have ever had in my life and I've never received more compliments on anything, the groomsmen buttonholes to the mother's flowers and the tablets in the evening all followed the same amazing flowers and theme!

I honestly can't thank Booker avenue enough for making our day more magical and special with the flowers, centrepieces and hanging love heart decorated with matching flowers and fairy lights.

It was more than we had ever imagined! Thank you all again, you have definitely got a customer for life
