

Beautiful wedding flowers. Booker did all of the flowers for our wedding including the bouquets, flower crowns, button holes, centrepieces and more. The flowers were incredibly important to me and Gemma and the team were on hand to adapt and answer all of my questions leading up to the big day. They provided input to my ideas which made my vision even better. On the day everything was set up perfectly, our guests were wonderstruck with what Gemma and her team had created. I visited a number of florists initially and found it very difficult to locate an alternative florist who understood my ideas and could create something more unusual. I could not be happier with the results, I would recommend Booker to all.
