

Church/Wedding Venue

If you are having your ceremony and reception in the same place it saves on cost to get dual use out of the top table and table decorations. Altar / Registrars Table - this is the focal area when you are getting married. Items used in this area are large pedestal arrangements either side of where the couple stands and registrar table arrangement. If you are having tall arrangements on your dinner tables, these could be used as pedestals. Your top table arrangement or bouquet could be used for the registrars table. Aisle - Do you want decoration on the floor or the aisle such as petals or lanterns and / or something on ends of the chairs or pews? If having low arrangements on your dinner tables, these could be incorporated in your aisle decoration. Chair or pew decoration can be tied bunches or single flowers.
